DETAILED ACTION

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-37 remain provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-40 of copending Application No. 09/708,237. Although the conflicting claims are not identical, they are not patentably distinct from each other because of reasons made of record in Paper No. 5 dated 22 May 2002.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-10, 14, 17-25, 27 and 30-37 remain rejected under 35 U.S.C. 102(a) as being anticipated by Ahmed 6,074,445 for reasons made of record in Paper No. 9 dated November 14, 2002.

Applicant's arguments filed February 20, 2003 have been fully considered but they are not persuasive.

The examiner agrees with applicant's argument that "consisting essentially of" limits the scope of the claims to specific ingredients. However, a careful review of the instant claims reveal that the fuel composition of the instant claims have the open-ended language "comprising" and therefore would not exclude the addition of the higher ethoxylated alcohol and an ethoxylated fatty acid of Ahmed from the instant claims. Further, the said components encompass the carrier of instant claim 10. Ahmed clearly teaches the reaction products of at least one of natural or synthetic oil and at least one alkanolamine that anticipate the instant claimed amides. The instant claims are anticipated by the teachings of Ahmed.

Claims 11-13, 15, 16, 26, 28 and 29 are objected to for depending on claims that are rejected. The claims would be allowed if they were written in independent claim format containing the limitation of their independent claim.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
